LUX PROVIDE

ACCELERATE YOUR BUSINESS WITH INITIATE AND CASHBACK 80%

Embrace the future of computing with LuxProvide's tailored programmes INITIATE and Cashback 80%, crafted to empower startups and SMEs with access to the supercomputing capabilities of MeluXina.

INITIATE Programme

Seamless Onboarding to Supercomputing

The INITIATE programme is your entryway to exploring high-performance computing, structured to remove barriers to access. It is exclusive to startups, including those based outside Luxembourg. It offers:

- A streamlined onboarding process, allowing you to begin experimenting with MeluXina without facing technical or administrative friction.
- An opportunity to engage directly with the platform and understand how supercomputing fits your use case.
- A risk-free environment to assess the potential of HPC on your projects, without financial constraints.
- INITIATE serves as a foundational step, helping your business discover and harness the benefits of MeluXina effectively.

FREE ACCESS TO THE LUXEMBOURG'S WORLD-CLASS SUPERCOMPUTER MELUXINA

For startups refining their business ideas and prototyping.

- 4,000 CPU or 1,500 GPU node-hours
- 10 TB of data storage
- 24 support tickets (L1 or L2)
- Up to 6 months

Eligibility requirements

- Founded within the last 5 years
- Have not previously been granted credits beyond the free trial
- Have not previously signed a commercial agreement with LuxProvide
- Subject to hardware availability

What Are the Programme's Advantages?

- Fully complementary to your existing cloud provider services
- Hosted in a Tier IV data centre
- ISO 27001 certified infrastructure
- Entirely European-based, ensuring compliance with data sovereignty and GDPR
- Full spectrum of supercomputing, data analytics, and cloud computing services

CASHBACK 80%

Ensuring R&D Project Continuity and Growth

Following your initial engagement through INITIATE, the Cashback 80% initiative supports the sustained application of MeluXina to your business projects. This programme also serves as an entry point for Luxembourg-based SMEs.

It is designed to:

- Offer substantial financial support, covering up to 80% of your project's supercomputing costs.
- Encourage long-term development and scalability, making sure cost is not a barrier to innovation.

Cashback 80% reflects our commitment to supporting startups and SMEs with a path toward continuous R&D growth and technological advancement.

UP TO 80% CASHBACK ON YOUR USAGE OF MELUXINA, LUXEMBOURG'S WORLD-CLASS SUPERCOMPUTER

- Cutting-edge CPU and GPU computing
- Ultra-fast interconnectivity, top-notch data storage and expert support by skilled supercomputing team
- Expert support from LuxProvide's HPC specialists

Eligibility

- Available to small and medium-sized enterprises (SMEs)
- Before activating the offer, applicants must submit a state aid request ("Innovation aid for SMEs - RDI scheme") to the Ministry of the Economy, with assistance from Luxinnovation
- Subject to general state aid rules
- Rapid eligibility approval process
